

CONFIDENTIAL (when complete)

PLEASE READ THIS CAREFULLY BEFORE SIGNING

The provision and fitting of an electronic tag for your bicycle is a free service funded by your local Neighbourhood Watch Team (NHW) and the Rochford Community Safety Partnership (CSP.)

The fitting may require that parts of the bicycle be removed so as to insert the tag where it cannot easily be found or removed by another, in the event of your property being stolen. Appropriate glue may be used to secure the tag in place. The tags cannot be provided for you to take away and install yourself. Some bicycles may not be suitable for an electronic tag due to many different styles of bicycles manufactured. The installers may decide not to fit the tag but will discuss issues with you. The tags are often not suitable for very small children's bicycles.

It is advised that you complete a thorough maintenance check of your bicycle before riding it again after the tag installation has been completed to ensure the bicycle is safe to do so. NHW / CSP or Essex Police will not accept any liability or claim which arises as a result of the installer's negligence.

The details of your property and the serial numbers of the unique electronic tag will be sent to National Mobile Property Register www.thenmpr.com and www.immobilise.com for details of your bicycle to be included on the register. These details will not be viewable by anyone outside of a Police Force or Law Enforcement Agency and will not under any circumstance be provided to any third party for any purpose. If you have provided an email address, details of how you can log in to your Immobilise account will be sent to you. Immobilise is currently a free service being recommended by most Police Forces in the UK including Essex Police.

Please see the websites above for further information. If you have any doubts then do not authorise installation until you are happy to do so.

Disclaimer.

I have read and understand the terms and conditions of having a free electronic tag fitted to my property and I authorise the installation of a free electronic tag to my:

CHILD'S BIKE

In the unlikely event of damage occurring directly or indirectly as a result of installing the tag, I understand that NHW / CSP / Essex Police will not accept any liability or claim which arises as a result of the installer's negligence.
